---

Greg,

I wanted to follow up with you on the email below regarding city utilities. Please let me know what other information you may need.

Greg,

Attached is your original spreadsheet with notes from our Utilities Department and the plan sheets that we were able to find that correspond with the conflicts on your spreadsheet. Also attached are our GIS maps at each location with notes on if the lines were existing, abandoned, if we have attached plans, or if we had questions. Please let me know if we need to meet or discuss by phone. I have copied everyone that has been involved with the process thus far, so feel free to ask questions by email and we can respond accordingly. We look forward to hearing back from you on the next steps moving forward.

Greg,

Thank you for talking with us today and for the revised KMZ and spreadsheet. We will be in touch to discuss what we find and work with you to resolve any conflicts.

Have a great day.

Hi Cheryl,
Thanks for taking the time to discuss the project with myself and your team. As we discussed, attached is a revised KMZ that shows the locations of the City utilities from what I have identified by permit. I have also attached a spread sheet for each of the utilities. Please note on the KMZ file I have a pin number that corresponds to the spreadsheet for you to identify where each one is. If you have any questions please let me know.

Thanks,

Greg Morris | Consultant | greg@rowadvisors.com

Subject: Utility Maps

Greg,

You mentioned when we spoke that you had maps that were provided by the city. Could you please forward them to me so that our utility group can compare and confirm the information you have? We are also unclear about the full scope of the BNSF expansion. Do you have a map that I can add to my presentation to the council letting them know about this project?

Thanks so much. We look forward to talking with you this afternoon.
